

| Category | Subcategory | Name | More info link | Availability | Feature note | | | | | | |
|--|---|--|---|---------------|---|--|--|--|--|--|--|
| 1-Akeneo PIM data managed by the extension | 1.1-Product type | Simple product | https://help.akeneo.c | Available | GlobalLink Connect supports translations for simple products. | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.1-Product type | Product model (Product with variations) | https://help.akeneo.c | Available | GlobalLink Connect supports translations for product models. | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.2-Product attribute - textual information | Text | https://help.akeneo.c | Available | GlobalLink Connect translates data of products and product models from localisable attributes of type "text" and "text area". | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.2-Product attribute - textual information | Text area | https://help.akeneo.c | Available | GlobalLink Connect translates data of products and product models from localisable attributes of type "text" and "text area". | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.2-Product attribute - textual information | Table - textual information only | https://help.akeneo.c | Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.3-Product structure - textual information | Options for simple and multi select | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.3-Product structure - textual information | Categories | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.3-Product structure - textual information | Attribute groups | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.4-Reference entities properties - textual information | Properties | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.5-Reference entity records - textual information | Text attribute | https://help.akeneo.c | Available | GlobalLink Connect supports translation of reference entity records linked to products or product models. | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.6-Reference entity records structure | Single option | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.6-Reference entity records structure | Multiple options | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.7-Assets - textual information | Text attribute | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.8-Asset structure | Single option | https://help.akeneo.c | Not Available | | | | | | | |
| 1-Akeneo PIM data managed by the extension | 1.8-Asset structure | Multiple options | https://help.akeneo.c | Not Available | | | | | | | |
| 2-Extension settings | 2.1-Extension settings | Defining the source/default language | | Available | | | | | | | |
| 2-Extension settings | 2.1-Extension settings | Defining the translation due date | | Available | | | | | | | |
| 2-Extension settings | 2.1-Extension settings | Tracking translation progress | | Available | | | | | | | |
| 3-Extension capabilities | 3.1-Scalability and performance | Capability to manage large PIM data volume/complexity (or known limits) | https://api.akeneo.cor | Available | | | | | | | |
| 3-Extension capabilities | 3.1-Scalability and performance | Capability to manage PIM data synchronization time in an optimized way (Time-t | https://api.akeneo.cor | Not Available | | | | | | | |
